Avin Joju

Education

2026-present **Master of Science Artificial intelligence and Data science (M.sc)**,
Technische Hochschule Deggendorf , Deggendorf

- A.I and Software Development,
- Theoretical Fundamentals of A.I
- Mathematics for A.I and Data Science
- Advanced Machine Learning

2023-2025 **Master of Science Data Science(M.sc)**,
University of Europe for Applied Science ,Potsdam

- Grade point - 2.0
- Machine Learning
- Data Engineering
- Cloud Computing

2018-2021 **Bachelor of Science in Physics(Computer Application)**,
Mahatma Gandhi University,Kottayam,Kerala

- Computational Physics, Digital Electronics, Quantum Mechanics, Statistical Physics

Key skills

Programming languages	Python, SQL, C++
Machine Learning	TensorFlow, Scikit-learn, Deep Learning (CNNs, RNNs),Feature Engineering
Tools	Docker, Git, Jupyter Notebook, AWS
Data Tools	Pandas, NumPy, Matplotlib
Frameworks	TensorFlow, PyTorch, Scikit-learn
Soft skills	Analytical Thinking,Problem Solving,Agile collaboration,communication

Projects

2025 **Automated Blood Smear Analysis for Fast Anaemia Detection in Low Resource Clinics**

-Designed and trained a VGG16-based convolutional neural network (CNN) using transfer learning in the AneRBC dataset.
-Design and deployed a functional prediction module capable of processing new images and delivering real-time classification with confidence scores for clinical decision support..
-Technologies: Python, TensorFlow, Keras, Computer Vision, Scikit-learn, Statistical Analysis

2025 **AI Process-Automation Assistant**

- Developed an AI assistant that analyzes workflow logs to identify repetive tasks and propose automation strategies using GPT-4 reasoning.
-Combined process-mining techniques with data analytics to map task dependencies and detect efficiency gaps.
-Integrated with Microsoft PowerAutomate APIs to stimulate automated approvals and notifications,demonstrating agentic AI-driven process improvement.
-Technologies:python,GPT-4,PowerAutomate,Pandas

+49 17663660100 • *avin.joju@outlook.com*

2024 **Brain stroke Risk analysis (AWS)**

- Used AWS Quick Sight S3 to analyse health data, identifying risk factors (BMI, hypertension, smoking) and visualizing trends.
- Technologies: AWS Quick Sight, S3, Data Analysis, Health Analytics

Technical Experience

2023 **Python Django Full Stack Web developer Trainee**

Built scalable web applications using Python and Django

- Integrated MySQL databases via Django ORM for efficient data management and querying
- Developed responsive front-end interfaces using HTML, CSS, Bootstrap, and React.js
- Applied software engineering principles including OOP, exception handling, and Git version control

Certifications

- Stanford / DeepLearning.AI: Machine Learning Specialization
- IBM: Python for Data Science, AI Development
- UC Davis: SQL for Data Science

sectionLanguage

- English:C1
- Deutsch:A2
- Malayalam :Native

Personal Details

Full Name Avin Joju
